Words from the Managing Director

"We strive hard to forge lasting relations with our clients through dedicated service. We believe that satisfaction of the client and justification of their investment is of paramount importance."

Divakar Shetty
Founder & Managing director

About Us

The Walnut Vein is an architecture, Interior Design & Build firm, a new venture of "Multitech Contracting LLC, Muscat, Oman" based out of Bangalore. Multitech (formerly Karim Baksh Trading and Contracting from 1987-2006) is an integrated interior design and turnkey contracting firm with over 30 years of experience, having served clientele in various spheres including, hotels, banking, hospitality, showrooms and private residence.

Founded in 1987 by Mr. Divakar Shetty, Multitech started off with a small team and now can claim many prestigious projects in our portfolio and team strength of more than 300 employees from engineers, designers, skilled and unskilled labour.

We aim to create a built environment which is aesthetic, functional and durable in line with principles of cutting edge technology and engineering. We aspire to execute designs with a unique sense of identity for each project.

The Walnut Vein aims to provide quality service to a plethora of clients with diverse design requirements, environmental responsibilities and financial considerations. The final design/product aims to be a nearperfect collaboration of clients, architects, designers, fabricators and craftsmen.

We strive to leave a mark on each project we undertake, with our designs and fit out works. The office premises in Indiranagar, Bengaluru comprises of co-working spaces for increased design collaboration creating an environment for designers and clients alike. The office interior experience for clients and designers clearly depicts our abilities to execute projects.

Our Mission

"We plan to satisfy our clients with our design, manufacture, supply and commissioning of all specialties in interior designing that meet the best standards."

Our Vision

"We aim to leave an indelible mark in the design and build landscape of some major cities in India through innovation, refined building techniques, premium service & long term strategies in terms of building trust and a strong clientele"

Featured Projects

Residential Apartment

This apartment stands apart from the rest thanks to the smooth clean lines and its simplicity. The shades of cream, white, beige and brown make up the colour palette. The bedrooms are designed to look modern and sophisticated. This apartment is aesthetically pleasing and makes you feel at home.

This modern kitchen looks elegant and classy. The white and off white shades of color palette makes the kitchen look sophisticated and refreshing. The living area with its beautifully designed false ceiling and dazzling chandelier's makes the apartment look breathtaking. The sliding doors, skylight and patio gives the apartment an seamless flow.

Modern, clean and colourful. This U-shaped kitchen just looks fantastic with pops of coloured accents. The theme follows through out the house. The bedrooms have fabulous study that comes with a TV unit and magnificent wardrobes with sliding doors. The living room has stunning furniture's and beautiful wallpapers. The vibrant colour shades makes the villa extremely joyful to look at every single time.

Corporate office 1

These are our proposed renders for a office space. The office looks refreshing with shades of white and green. The false ceiling and the grid ceilings emphasises the office space and transfroms it into a warm, bright and relaxed ambience.

Corporate office 2

This is an office space designed by incorporating vibrant colours. A beautiful buffet area was designed to improve interpersonal communication between employees. The stunning glass partition allows the light to spread out thereby making the cabins look aesthetically appealing.

Private Office

A breathtaking office space designed by our team. The false ceiling is phenomenal with wooden panneling accentuating its beauty. The furnitures are made bespoke for the client .

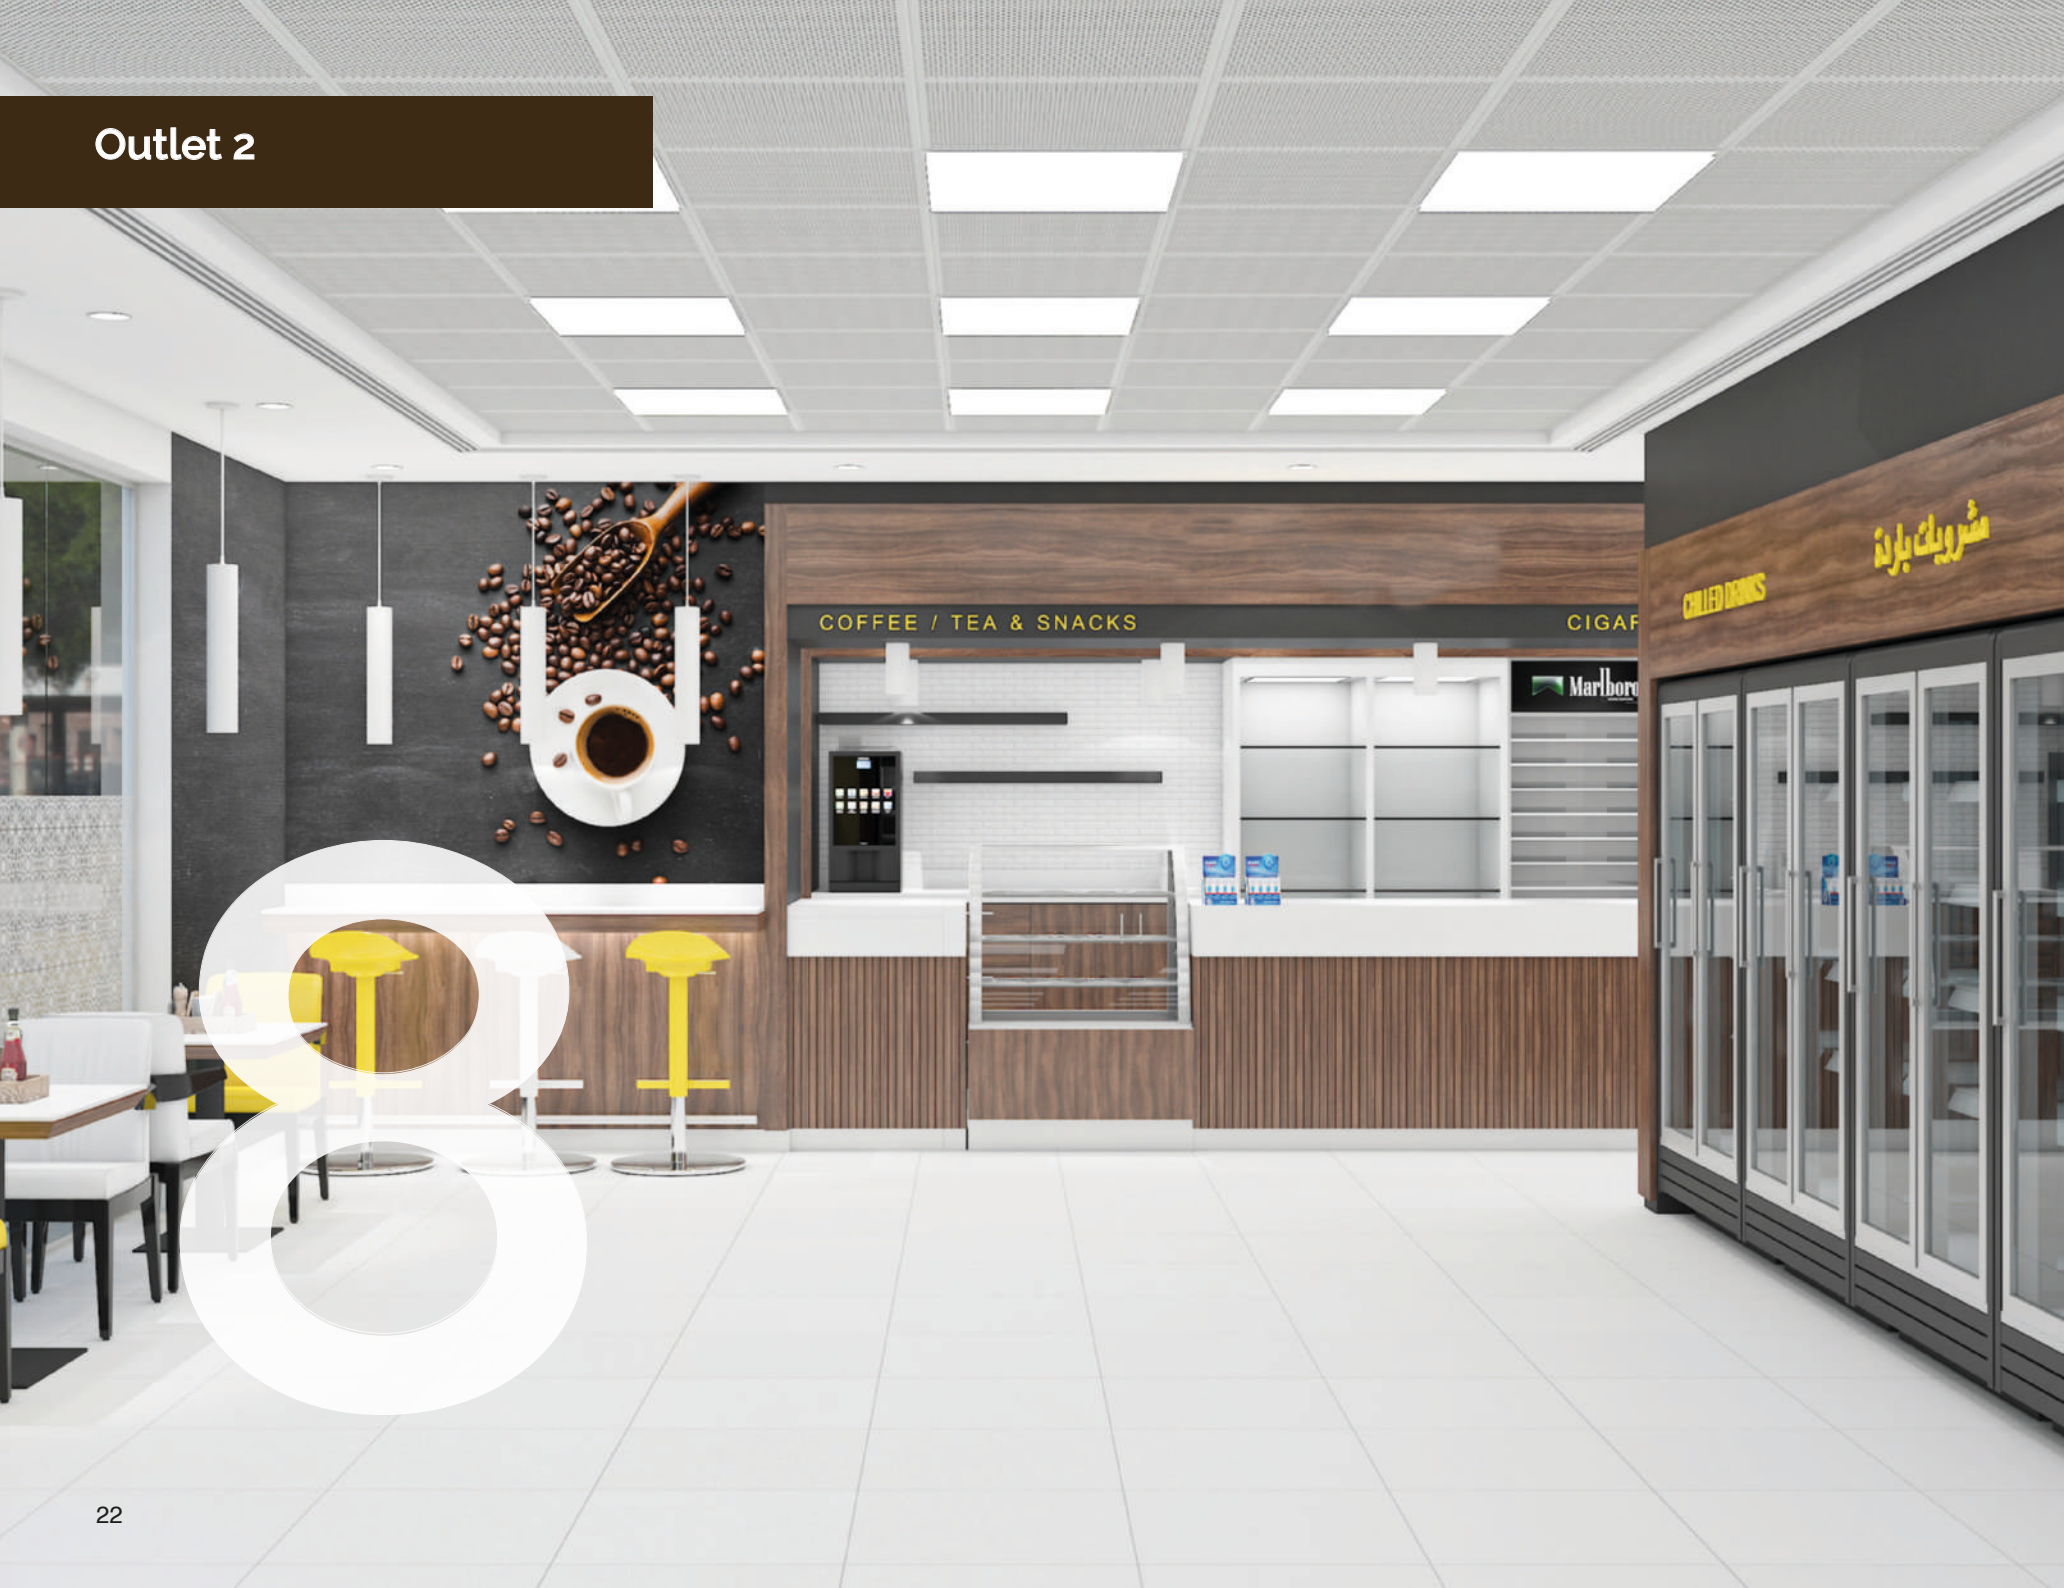

Outlet 1

While designing the outlets we take into consideration the aesthetics and functionality. The ease with which a customer can shop is taken as a main priority while designing.
